

CEREN KODAŞ

INFORMATION SYSTEMS ENGINEERING STUDENT

ABOUT ME

+90 5384628703 · cerenkodass34@gmail.com · [Linkedin](#) · [Github](#) · İstanbul/Türkiye

I am a computer engineering student who is passionate about software development and eager to continuously learn and improve. I have developed several web and mobile projects and gained experience with different programming languages and technologies. Currently, I am further improving my technical skills by studying artificial intelligence and data-related fields. I am a motivated developer with strong problem-solving skills, open to teamwork, and always willing to learn new technologies.

STRENGTHS AND EXPERTISE

Languages: Python, Java, JavaScript, HTML, CSS, SQL, C and C++

Frameworks and Technologies: Django, Node.js, MySQL, REST API, Data Structures & Algorithms, Git, GitHub, Visual Studio Code, PyCharm

Soft Skill: Problem Solving, Communication Skills, Teamwork, Adaptability and Learning Agility, Time Management and Organization

PROJECTS

Budgee – Smartwatch Budget Planning App

Technologies: Kotlin, Jetpack Compose, Wear OS

- Developed an AI-assisted budget planning smartwatch application for Wear OS using Kotlin and Jetpack Compose.
- Implemented features such as expense tracking, smart suggestions, and a user-friendly interface optimized for smartwatches.

Dictionary – Multilingual Dictionary Application

Technologies: Python, Node.js, JSON

- Developed a dictionary application capable of translating words between four languages.
- Implemented word search, meaning lookup, and translation features using JSON-based data.

LeagueFixture – Terminal-Based League Fixture Generator

Technologies: JavaScript, CSS, HTML

- Developed a scoreboard project using JavaScript and CSS, incorporating interactive buttons for users to increase, decrease, and set scores. Additionally, I designed custom buttons for users to change team names and enhanced the project's visual appeal using CSS for an aesthetic improvement.

Dessertia – Dessert Recipe Website

Technologies: HTML, CSS, JavaScript, MySQL

- Developed a dessert recipe website where users can browse and view dessert recipes.
- Implemented dynamic content by fetching recipe data from a MySQL database and designed a responsive user interface.

WORK EXPERIENCE

BMS Proje | Web Development Intern

July 2025 – August 2025

I completed my mandatory summer internship at BMS Proje, where I worked on web development projects. During this period, I gained practical experience in front-end technologies such as HTML, CSS, and JavaScript. I participated in developing and improving web pages, worked with data retrieved from databases, and supported the team in building user-friendly web interfaces. This experience helped me strengthen my problem-solving skills and improve my understanding of modern web development practices.

Professional Skills and Competencies

- Basic experience in HTML, CSS, and JavaScript
- Understanding of web development fundamentals
- Ability to work collaboratively in a development team
- Problem-solving and analytical thinking skills
- Willingness to learn new technologies and improve technical skills

EDUCATION

Mehmet Tekinalp Anatolian High School

September 2018 – June 2021

GPA: 92.76 / 100

Piri Reis University | Information Systems Engineering

September 2022 – Current

GPA: 3.20 / 4.00

During my studies in Information Systems Engineering at Piri Reis University, I developed a strong academic foundation in software development, algorithms, and database systems. Through my coursework, I improved my analytical thinking and problem-solving skills and gained a comprehensive understanding of software development processes. I also had the opportunity to work on team-based projects, which helped me strengthen both my technical and communication skills. In addition, I am currently taking courses to further develop my knowledge in data science and artificial intelligence.

LANGUAGES

Turkish (Native) , **English** (Professional Working Proficiency)

CERTIFICATES

- Digital Banking Bootcamp Program — DenizBank & İlerisi Gençlik | 2025
- HTML Essentials — Cisco Networking Academy | 2025
- CSS Essentials — Cisco Networking Academy | 2025
- Data Science Essentials with Python — Cisco Networking Academy | 2026
- Introduction to Cybersecurity — Cisco Networking Academy | 2026
